Staffing continues to be a major issue with the Sheriff's Office. This involves all aspects, support services, Corrections and Road Patrol. Hiring and retaining in a very tight job market is affecting all of law enforcement. We are very careful in our hiring process and doing so has allowed us to have an excellent, competent staff that I hold up high against any other agency. We receive very few citizen complaints and many more kudos for the job the staff is doing.

We, like all other agencies, are trying different things, such as sponsoring people right off the street to attend the Delta College Police Academy. Agencies now must use advertising, job fairs, billboards etc. to try and entice new people in this competitive market.

Speaking of the building infrastructure, the inefficiency of the facility has not and will not go away and major amounts of money are needed just to keep the system running. That is why the board of commissioners approached the Sheriff to again try for a millage to replace the building. Every year that we wait the more it will cost. We encourage every citizen of Tuscola County to come for a tour the 58-year-old building and see firsthand the issues.

Respectfully Submitted,

A handwritten signature in black ink that reads "Glen Skrent".

# TUSCOLA COUNTY MARINE PATROL

The Tuscola County Sheriff's Office is a full-service organization to the residents of Tuscola County. In that end it provides boat patrol to Saginaw Bay and several inland lakes in Tuscola County. With the Board of Commissioners assistance, they have approved the retiring of our 1999 patrol boat, which patrols Saginaw Bay, and a new one will be on the water next spring. It will be an asset to all boaters on Saginaw Bay for many years to come. Sunset Bay Marina has provided us free docking for the past several years which has been helpful.

With the help of the Richville Conservation Club who provided the venue we held another boater safety class last year.

In 2022 part time Marine deputies helped tow two stranded boaters. While we do not always tow and can leave it up to a tow service, we will not leave anyone stranded on the bay without assistance.

During last season the Coast Guard requested assistance from us to proceed to Caseville for boaters in distress.

The smaller (17 ft) patrol boat is used on Murphy and North Lake

20 citations were issued last year for a variety of offenses including unregistered vessels, lack of life preservers and other safety violations. Many warnings were issued and some were escorted off the water until they fixed the issues. Boater safety is the main function of our marine patrol.

# Tuscola County Development Plan

## Executive Summary

---

The Tuscola County Development Plan (TCDP) is a state-required guidance document. It serves the purpose of providing basic guidelines and assistance material for the development of municipal master plans. In Tuscola County, this document focuses and provides guidance for two large overarching county goals, local municipal control and the preservation of farmland.

The organization of this document is designed to support these two priorities. The document is divided into seven parts.

- Sections one and two provide the legal authority, purpose, planning goals, and policies that form the foundation of the county plan.
- Sections three, four, and five provide information important to fostering local and municipal planning. This material includes guidance on developing effective capital improvement plans, a county-level community assessment, and overall county-level objectives. The county profile is also provided to facilitate and improve local municipal planning factors.
- Section six highlights the Farmland and Open Space Preservation Program. In addition to being a primary focus of Tuscola County, this section also provides a critical planning factor for local development.
- The appendix serves a dual purpose. First, it provides the planned future state of each local municipality. This allows for direct cross-examination of municipal purposes and more easily highlights potential conflicts and incompatibilities. The appendix also provides information on county-level community initiatives.

The periodic revisiting and updating of the TCDP is necessary to ensure that the document continues to be relevant and provides useful information. During the review and revision of this version of the TCDP, it was noted that the last county-wide community assessment was conducted in 2005. Since this date, there have been numerous changes within the county as evidenced by the County Profile. These changes in population density, age, and economic factors indicate additional considerations for community development should be considered and included in the next TCDP as well as replace the existing Community Assessment as an additional guidance document.

**The Tuscola County Planning Commission recommends a Community Assessment Team be formed over the next two years to evaluate the current state of the county**

Good morning Clayette. I have a 3 yr maintenance agreement with Motorola that should go before the board for approval. For the 3 yrs it is \$64,959.99. This carries us to 2026 when the State's Radio service will be updated. It also gives us an easy budget for the next 3 years. This also takes into account the 12 month period for warranty service on the one new piece we're waiting to have installed.

This IS NOT a new service or agreement. This has traditionally been done annually but we discussed the multi year agreement and agreed it provided the best and easiest service solution for us. Thank you.
