

Tuscola Mental Health Court Policy & Procedure Manual

MISSION

The mission of the Tuscola Mental Health Court (TMHC) is to enhance public safety and reduce recidivism of criminal defendants who suffer from serious mental illness by connecting these defendants with Mental Health treatment services, and to connect them with appropriate community services to get back on track. The TMHC is intensive supervision combined with treatment and will assist offenders in achieve long-term stability, become law-abiding citizens, and become successful in their communities, therefore reducing recidivism and jail expenses to the community.

GOALS AND OBJECTIVES

The primary goals of the Tuscola Mental Health Court are to:

- Connect criminal defendants who suffer from serious mental illness to mental health treatment services

Objective: A connection has been made with Mental Health services through Tuscola Behavioral Health Services, in which each participant will work with the treatment provider in creation of a treatment plan, life skills, community reunification, medication compliance, anger management, job/employment skills and other various needs individualized per participant.

- Find appropriate community resources to assist the participant with daily needs

Objective: A connection has been made with a peer support through TBHS that can assist each participant with resources within their individualized daily needs. This can consist of needs such as, housing, state assistance, understanding medication compliance, income/employment, and transportation and over all support, as well as other various needs individualized per participant.

- Ensure public safety and reducing recidivism through appropriate mental health treatment and intensive supervision.

Objective: This goal will be achieved by offering the intensive TMHC as an option other than incarceration. Each individual that becomes a participant of TMHC will begin mental health services with TBHS and will have intensive supervision through both treatment, probation and both Circuit and District Courts. This will aid in reducing recidivism and increasing public safety.

- Increase collaboration between the court, city agencies, and community mental health treatment services.

Objective: A link has been made between the court, probation, defense attorney, prosecuting attorney and Tuscola Behavioral Health systems. A team has been created to aid

each collaboration in maintaining contact of participants during their time within TMHC. This allows each team member to work together in assisting each participant with their individualized needs, thus reducing recidivism, jail costs and usage, and increasing public safety.

Tuscola Mental Health Court Team

The Tuscola Mental Health Court Team is a dedicated, multi-disciplinary team of professionals that consists of (but not limited to), a judge, program coordinator, case manager(s), probation officer(s), prosecutor(s), defense counsel representative, treatment representative(s), law enforcement representative(s), and drug testing representative.

Team members consistently attend staff meetings and judicial review hearings to review new referral eligibility, participant progress, and help determine appropriate actions to improve outcomes. In addition to monitoring current participants, the TMHC staff also monitors graduates by checking recidivism at 3, 6, 9, 12, and 24 months post-program.

Team members are expected to pursue trainings and educational opportunities in order to advance their knowledge of treatment court best practices. It is highly encouraged that all team members, especially new team members, attend conferences such as the Michigan Association of Treatment Court Professionals conference, as well as trainings through the State Court Administrative Office. New team members will complete an orientation checklist as well as meet with the judge and program coordinator, in order to review TMHC policies and treatment court standards/best practices.
